The 3rd Activity Report

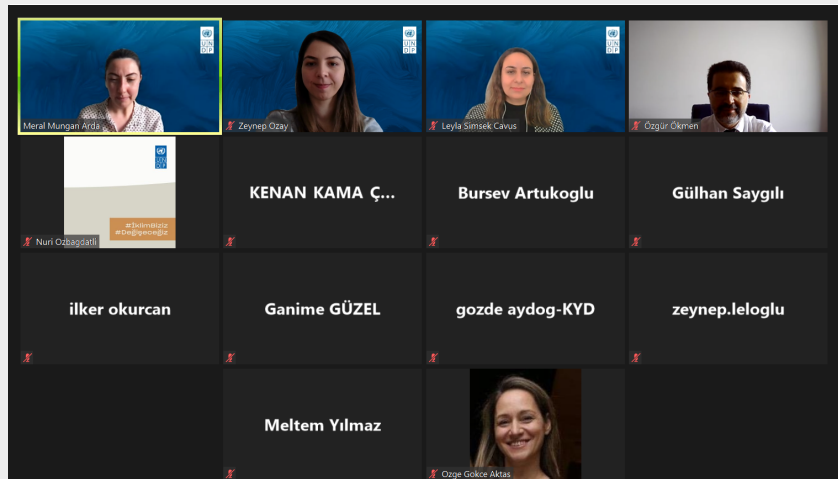

Identification of the Pilot Sites

As part of the project, technical assistance team continues the site visits in order to identify the pilot sites. In this regard, the seventh site visit was held on 7-9 April 2021 under this activity. Soil Pollution and PRAG/FIDIC Consultants have been working on the technical specification and tender dossier preparations for the sites where remediation works will be conducted.

Project Steering Committee Meeting

The 3rd Steering Committee Meeting was held online on 9 April 2021. Technical assistance team gave a short presentation to inform the participants about the project activities. At the end, it was decided that a separate meeting will be held with the Steering Committee members after receiving analysis results related to remediation studies on the pilot sites.

Training on Contaminated Sites Monitoring

Training on Contaminated Sites Monitoring, the last of the first training series, was held online on 28-29-30 April 2021 according to COVID-19 measures. As per the "Regulation on Control of Soil Pollution and Sites Contaminated by Point Sources", the subjects related to contaminated sites remediation, determination of clean-up targets, monitoring requirements and risk calculations were explained. 126 people from central and Provincial Directorates of Ministry of Environment and Urbanisation and representatives from the relevant institutions and organisations were attended this training.

You can read more details about the training on www.kalicikirleticiler.com or scan the QR code.

Regulation Studies

Technical consultants continue their studies to define a roadmap regarding the revisions to be made on the "Regulation on Control of Soil Pollution and Sites Contaminated by Point Sources".

Water Cycle and POPs Video

The first draft script was prepared for the video which will be produced to raise public awareness on the water cycle and persistent organic pollutants. The script and video are planned to be finalized and designed according to meetings with the Ministry of Environment and Urbanisation.

The 3rd Activity Report

The 3rd Activity Report was submitted to Contracting Authority and Beneficiary Institution on 30 April 2021, for their approval. The final version of the report will soon be submitted with its Turkish translation.
