## Meetings on the Regulation

Two separate meetings were held on 1 March 2021 and 26 March 2021 with project's technical consultants and the Beneficiary in order to define a roadmap for changes to be made in the "Regulation on Control of Soil Pollution and Sites Contaminated by Point Sources". The studies are initiated for the implementation of work packages in line with the meeting decisions.

*3 March 2021, MoEU meeting room*

*26 March 2021, video conference*

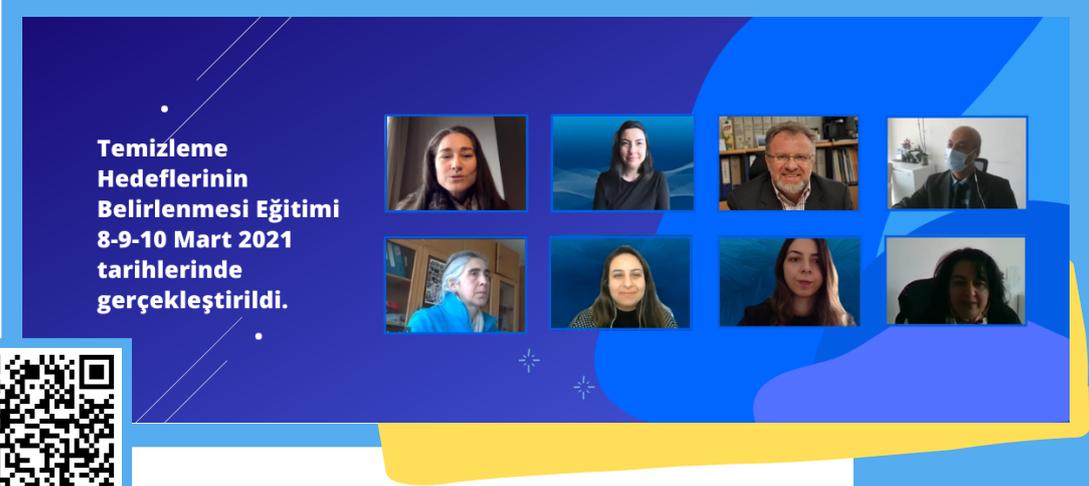

## Meeting on Contaminated Sites Information System Training

A meeting was held with the Beneficiary on 2 March 2021 to determine the content and programme of the Contaminated Sites Information System (CSIS) Training.

## Training on Determination of the Cleaning Targets

Training on Determination of the Cleaning Targets, the third of training series, was held online on 8-9-10 March 2021 with the participation of 169 people from central and Provincial Directorates of Ministry of Environment and Urbanization and the related public institutions and organizations. The processes related to remediation of contaminated sites, conceptual site model, generic and site-specific risk assessment, technologies for contaminated sites, determination of risk-based site remediation targets, etc. were explained and supported with international examples during 3-day training.

Temizleme Hedeflerinin Belirlenmesi Eğitimi  
8-9-10 Mart 2021 tarihlerinde gerçekleştirildi.

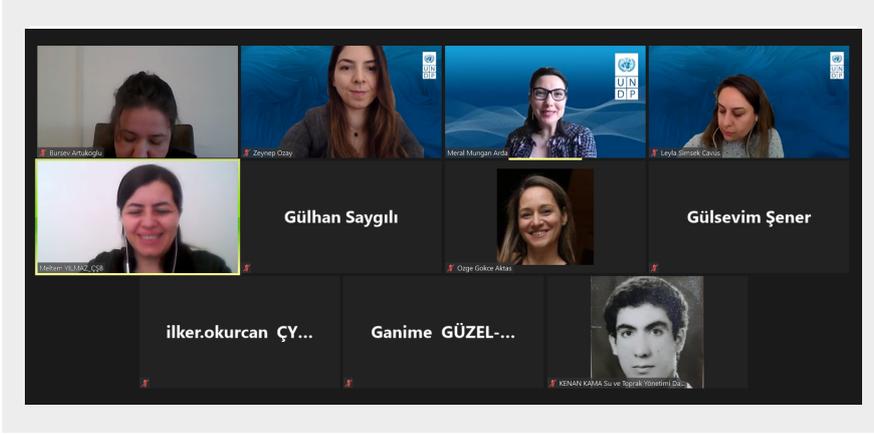

## Identification of the Pilot Sites

Technical site visits were held in relation to pilot remediation studies to be carried out within the scope of this project. The sixth site visit was held on 2 March 2021 under this activity. Soil Pollution and PRAG/FIDIC Consultants are currently working on the technical specification and tender dossier preparations for the sites where the remediation works will be conducted.

## 15th Operation Coordination Unit Meeting

15th Operation Coordination Unit Meeting was held online on 29 March 2021. The progress in the project activities and analysis studies conducted for identification of the pilot sites were presented.

## Contaminated Sites Information System Training

Contaminated Sites Information System Training, in which CSIS software infrastructure and various implementation processes are explained, was held online on 31 March 2021 according to COVID-19 measures. 109 people from central and Provincial Directorates of Ministry of Environment and Urbanisation was attended this training. The screens about creating preliminary information and inspection forms for orphan sites, evaluation of these forms and reporting processes were explained to the participants through the system.

## Training on Contaminated Sites Monitoring

Preparations regarding the Training on Contaminated Sites Monitoring which is to be held on 28-29-30 April 2021 is ongoing.
